Outdoor Signage

OHB-S, OHA-S, OHA series

Deliver bright and brilliant messages, built for the outdoors

Vivid and versatile display demand on the rise

The role of displays has expanded across industries, with digital boards now trending as an alternative to static images, particularly in outdoor environments such as drive thrus, gas and EV charging stations, and even signposts. Content in these environments must be visible even under bright light, while also remaining stable and durable against a variety of tough conditions for optimized business performance. The right digital signage not only provides a higher level of customer experience, but also maximizes operational efficiency through flexible signage management for an optimized solution.

Outdoor optimization for your business with Samsung outdoor signage

High visibility

Auto brightness sensor

High visibility for clear, more concise communication

Businesses can deliver active product promotions with clear visibility in any bright external lighting conditions*, regardless of whether it's day or night. This enables customers to make the best possible choices, ensuring a satisfactory experience to create future sales opportunities.

* This is the result of testing based on outdoor environmental conditions of 10,000 lux or higher.

Water & dust resistant (IP56)

Magic Protection Glass (IK10)

Flexible and robust hardware to enhance any business

Outdoor displays require certification to ensure they can perform in a variety of conditions, from snow and rain, to strong sunlight and even external physical impact. Typically, providing this robust durability requires bulky hardware, but Samsung's OHB-S, OHA-S and OHA series offer a slim design that blends well in a variety of outdoor environment.

* IP56 (Ingress Protection Rating): Degrees of protection provided by enclosures (IEC 60529)
* The IK European strength test rating uses a 0-10 scale (where 10 indicates the highest possible protection) to measure the degree of resistance against external impact.

Easy content management

Powerful security

Reliable and advanced software for effective management

Stable content playback is enabled by Tizen, while real-time, seamless display operation is made possible with MagicINFO CMS. As a result, promotions and content throughout a network of signage can be effectively adjusted according to the time and place, reinforced by strong security that protects against external threats such as hackers.
Eye-catching visuals from everywhere

Outdoor Visibility
Brightness greater than 3,500 nits
Outdoor Contrast Ratio 750:1
Outdoor Color Brightness ratio 100% ± 10

Clear and vivid anytime, anywhere `Newly upgrade`

The OHB-S, OHA-S and OHA are UL-verified for outdoor visibility and offers brightness levels greater than 3,500nits. The Samsung outdoor signage's 24/7 performance delivers crisp and vivid content with a built-in auto-brightness sensor, which automatically adjusts the brightness based on any external lighting for a versatile and operationally efficient display.

* Images and enclosure are simulated and for illustration purpose only.

Samsung's OHB-S, OHA-S and OHA RGB Panel

Max brightness of each color (OH55A-S)

| Color	Nits
Red	696 Nits
Green	2692 Nits
Blue	323 Nits

Bright and vivid colors for accurate communication and delivery

The OHB-S, OHA-S and OHA series deliver advanced color accuracy and brightness, creating vivid content through enhanced color reproduction of all red, green and blue shades. With crisp content being what customers now expect, the Samsung outdoor signage's uncompromised picture quality will be sure to capture customer attention.

* The max brightness of each color is based on internal measurements conducted by Samsung.
* The max brightness of each color may vary by model.

Non anti-reflection

Anti-reflection technology

Low reflection
<1.5% reflection rate

Clear and high visibility

Enhanced visibility with anti-reflection technology

Samsung OH55A-S is enhanced by Magic Protection Glass, which utilizes advanced anti-reflection technology. This innovative solution ensures much better visibility when watching in broad daylight, with a total reflections rate of lower than 1.5%, ensuring clearer images and text for every viewer.

* The total reflection rate is based on internal measurements conducted by Samsung.
* The total reflection rate may vary by model.

Designed with durability in mind

Optimized protection in a variety of outdoor conditions

With certified IP56-rated protection, OHB-S, OHA-S and OHA deliver robust reliability to withstand physical impact as well as dust and water that might affect the display. This ensures optimized operation in a variety of outdoor conditions for consistent performance.

* IP56 (Ingress Protection Rating): Degrees of protection provided by enclosures (IEC 60529)

Prevent humidity for optimal performance with newly added fans `Newly upgrade`

With four newly added, hidden fans in the downside of the display, the OH55A-S reduces concerns around external humidity issues such as condensation. The effective air propelling capabilities of the display by the fans enable seamless operation.

* Newly added fans are only available for OH55A-S and OH46B.

Robust durability for screen safety

Fitted with tempered Magic Protection Glass, the Samsung OHB-S, OHA-S and OHA provide durability that is IK10-rated, ensuring advanced safety and protection against external impact. This ensures the product is safe against unexpected damage, giving store manager better peace of mind.

* The IK European strength test rating uses a 0-10 scale (where 10 indicates the highest possible protection) to measure the degree of resistance against external impact.

Powerful performance with slim design

A slim, all-in-one composition enables easy installation, while long-term performance is ensured through IP56 protection, anti-reflection technology, damage defense and an efficient cooling system. Plus, an integrated power box condenses operational components and supports an ultra slim frame.

* "Conventional" refers to Samsung's OHD series.
* IP56 (Ingress Protection Rating): Degrees of protection provided by enclosures (IEC 60529)
* The IK European strength test rating uses a 0-10 scale (where 10 indicates the highest possible protection) to measure the degree of resistance against external impact.
* Design including depth and bezel size may vary by model.

Optimized performance without compromise

Smooth and seamless content playback

The embedded MagicINFO Player S10, backed by the powerful TIZEN operating system, boosts the overall performance of the display and offers painless content management. This ensures seamless transitions and playback to deliver a better experience for both customers and store managers.

* MagicINFO license must be purchased separately.
* MagicINFO player version may vary by model.

Powerful, protective security

The OHB-S, OHA-S and OHA series use comprehensive three-layer security protection, powered by Samsung's proprietary Knox technology, supporting application development on the secured platform and minimization of security attacks.

Suitable for various business environments

Samsung's full-outdoor series provides a versatile is suitable for a wide range of business uses. Designed to be visible in a variety of weather conditions, the OHB-S, OHA-S and OHA series provide a versatile and optimized solution for the purpose of advertising, information display, and even menu boards.

2022-11

1 **Who do I contact for technical support issues?**

Contact your Dealer for technical support and consultation. You will need to provide the screen model number, model code, serial number and proof of purchase. This information can be found at the back of the digital signage product or on the back of the Samsung Monitor (if accessible).

The screen model number is the Series along with the size of the monitor. Example PM43H.

The model code has the following format: LS/F/H/T…/EN

The serial number has 15 characters and has the following format: xxxx9xxxxxxxxxx

2 **How do I report a defect claim?**

In the event of a defect claim, please contact your Dealer from whom you purchased your digital signage product. You will need to provide the screen model number, model code, serial number, purchase date and proof of purchase. The Dealer will document the claim and provide further consultation as to remediation options.

3 **Does my digital signage product have a warranty?**

The warranty includes a 1-year manufacturer's warranty from date of purchase for the outer hardware which consists of the housing unit. The monitor itself is covered by a Samsung 3-year product warranty for SMART LED Signage. The Samsung warranty takes effect with the first purchase date from an authorized Dealer.

Conditions of the Samsung warranty can be found in the Samsung Warranty Card and at www.samsung.com under section "Support".

4 **What is MagicINFO and how can I use it?**

Your Samsung monitor is pre-loaded with the MagicINFO App, which is a content management software. With MagicINFO or other content management software you can manage and control the flow of content on multiple devices across multiple locations via remote desktop. The software has built in layouts, widgets, webtools and other creative applications. Playlists and scheduling can be managed across all devices.

Additional fees are required to activate and run MagicINFO. You can download and install the MagicINFO software onto a server or use the cloud-based subscription and activate the user license. The software download is free of charge from the MagicINFO website (www.magicinfoservices.com), but a fee is required for the licenses. Other third-party software programs are also compatible with the Samsung monitors.

5 **Where can I find cleaning instructions?**

Regular cleaning and removal of dust and debris will help prolong the life of your product. Follow the safety precautions and cleaning instructions as outlined in the Samsung User Manual, which can be found at www.samsung.com under the section "Support". Safety precautions and cleaning instructions are listed in Chapter 1. Safety and subsection Cleaning.

Do not attempt to clean the inside of the Samsung monitor. Contact an authorized Dealer for additional cleaning instructions.

YOUR FIRST STEPS WITH THE DEVICE

1 Plug into socket. Device should automatically turn itself on.

2 Use the remote control to turn the device on/off and to change settings.

3 Insert USB or connect to WiFi to upload and play content.

UPLOADING CONTENT VIA USB MEMORY STICK

1. Find your USB memory stick

Switch on the device > Press the Home button to enter the menu > Go to the play icon and press Enter> at Int. Memory find your USB stick > Options (right) shows all content options
2. Clean up internal storage

We recommend to delete the existing content. Otherwise you will show all existing content in an endless loop.

In the overview of your content in the upper right corner, go to Options > Delete > Enter > select the right file > Delete > Enter
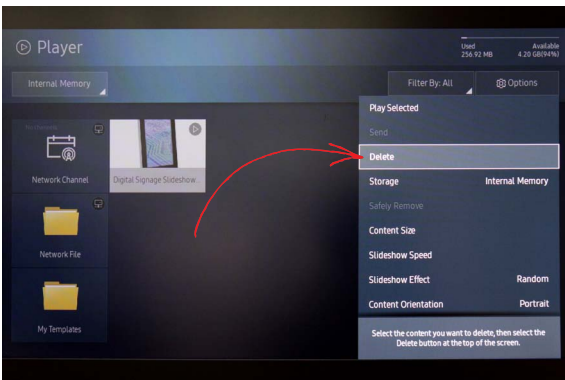

3. Content integraion

Top left select the USB stick > Options > Send > select the correct image / video > Enter > Send > now you see „internal memory"> Enter > Start to play > OK to confirm
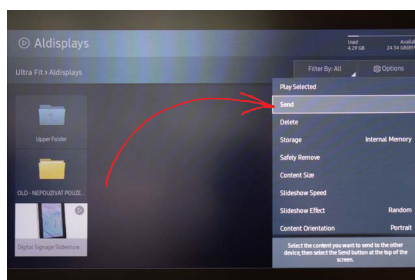

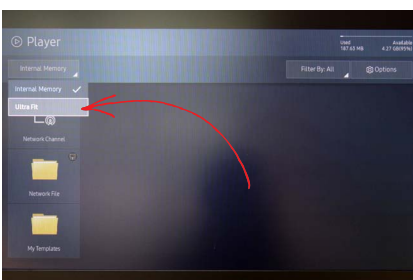

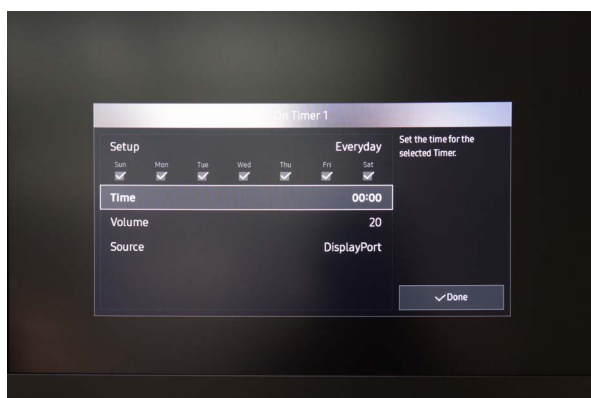

4. Stop and play video files

To stop the video > Cancel > Int. Memory > Select File > Enter

5. Set playing and operating times

If necessary set the correct date and time Menu > System > Time
